

Custom made semi-manufactured products

Comco-PA6G

Measurements

Blocks

Our in-house mold production offers you a wide range of measurements and possibilities of blocks. Polyamide cast blocks with measurements of 1000x 1000x 500mm or 1000x 1000x 250mm are standard for us! We offer a wide range of rectangular shapes. Blocks with measurements of 1000x 250x 250mm or 200x 200x 250mm are available for immediate delivery. Be it Comco-PA6G or Comco-Powerglide, all modifications are possible. Maximum weight per piece is 1000 kg.

Circular Blanks

Our in-house mold production offers you a wide range of measurements and possibilities of circular blanks. Polyamide cast circular blanks with measurements of 1000 x 200 mm or 1500 x 500 mm in diameter are standard for us! Circular blanks up to a diameter of 2100 mm and individual lengths are available for delivery. Maximum weight per piece is 1000 kg. Be it Comco-PA6G or Comco-PA6G MO, all modifications are possible.

Rings

Our in-house mold production offers you a wide range of measurements and possibilities of circular blanks. Polyamide cast rings with measurements of an external diameter of 1000 mm, an internal diameter of 400 mm and a height of 200 mm, or an external diameter of 1500 mm, an internal diameter of 500 mm and a height of 300 mm are standard for us! Rings up to an external diameter of Ø 2100 mm and from an internal diameter of Ø 50 mm are available for delivery. Be it Comco-PA6G or Comco-PA6G OL, all modifications are possible.

Pipes

More than 20,000 different standard measurements from ongoing production are readily available for delivery – WITHOUT minimum quantities. External diameter from 50 – 250 mm up to a length of 3000 mm; external diameter from 260 – 500 mm up to a length of 2000 mm; external diameter from 525 – 1250 mm up to a length of 1000 mm.

Be it Comco-PA6G, Comco-PA6G MO or Comco-PA6G OL, all modifications are possible.

We deliver precision at the standard our professional customers require. Send your enquiry or order right away!
